TO: Residents & Families via Global Connect

Good Afternoon,

Due to the risk of COVID-19 entering our building and the sheer number of people dropping off packages and food, we are requesting that residents utilize our free concierge service to obtain any essential groceries and medications. We ask that residents not leave the campus unless absolutely necessary, and that we do not have groups of people getting together in common areas or in homes. In addition, we are trying to reduce the number of visitors and family dropping off and picking up items. If residents need help with daily tasks, please let the front desk or campus care know. Social distancing, meaning staying at least 6 feet from another person, is important, as well as frequent hand washing. We have not had any cases of COVID-19 at Vista Grande Villa, and we are working hard to keep it that way, and due to the contagious nature of this virus, it would be very difficult to contain. Starting tomorrow (3/20/20), we will not be accepting any packages at the front door. If there are questions or concerns regarding this, please contact the front desk at 787-0222. Thank you!
